Message from the Management

We would first like to extend our sincere gratitude to all our stakeholders for their patronage to the Bank of Nagoya.

We will carry out the key points and the strategies of the 19th management plan “Change! Making Changes! A Fresh Start!”—Becoming a Bank Overflowing with Satisfaction, which we launched in the fiscal year ending March 31, 2015. Going forward, we will strive to provide even more useful information while responding to your opinions and requests. Also, in order to become a bank that treats customers with more sincerity than any other bank, cares about its customers more than any other bank, and is liked by everyone, all of the Bank’s executive officers and employees will make concentrated efforts to foster regional prosperity.

We will act suitably as a regional financial institution, and carry out stringent compliance and conduct business as people would expect of a bank like the Bank of Nagoya. As such, we greatly appreciate your even stronger support as we move forward.

June 2014

Operating Environment

In the final fiscal year of the 18th management plan, “Reform & Challenge—Aiming to be the Region’s Top Bank,” we advanced many new initiatives aimed at contributing to the region.

To begin with, we upgraded our core banking system, which the Bank develops on its own, and as a part of our effort to improve our level of customer service, we enabled customers to access their accounts almost 24 hours a day at convenience store ATMs as well as Japan Post Bank ATMs. Going forward, we will continue to flexibly and proactively offer services aimed at increasing the level of convenience for our customers.

Next, in order to invigorate the region’s economy, we launched the Bank of Nagoya Motto-Jimoto Startup Support Team, a one-stop service to provide financing and advice to customers who are launching a new business. Customers have told us that they want to first talk to us when they start a new business, and this has also raised our visibility.

The region is not only a center for manufacturing, but agriculture, forestry, and fisheries are also vibrant in this area. Aiming to support the further development of such industries, we teamed with seven local credit unions and others to establish the Aichi-Jimoto Fund for Agriculture, Forestry and Fisheries Investment Limited Partnership, which will support business diversification. Leveraging the distinct features of financial institutions with strengths in producers, processors, or retailers, we are aiming to expand markets and create new markets, and develop agriculture as a growth field. Even looking throughout Japan, it is quite rare for a large number of financial institutions to jointly establish an agricultural fund, and going forward we will work together to help the region.

In Aichi Prefecture, the Bank’s home, a number of large projects are scheduled to get underway over the next few years. One of these projects is the linear Chuo Shinkansen, which is slated to start service in 2027. This train will make it possible to travel from Shinagawa to Nagoya in roughly 40 minutes, will likely result in an even more dynamic flow of people and goods than before, and is expected to greatly contribute to the growth of the region. The Bank will keep its feet firmly planted in Aichi Prefecture, which appears to have a bright future in terms of both the economy and population, and will leverage the branch network of 104 branches in the prefecture. In addition, the roughly 2,800 executives and employees of the Bank will work as one and aim to be a bank needed by the region, using an “all-hands-in sales platform” that enables us to meet the diverse needs of our customers.

Operating Results (Nonconsolidated basis)

The Bank's guiding precept is "fostering regional prosperity." The Bank has strived to provide financial services in order to develop the regional economy, and going forward we will continue to conduct business strongly rooted in the region in order to help our customers grow and prosper.

Basic Policies Behind the Bank's Initiatives

1. Basic Policies for Demonstrating Customer Consulting Capabilities

- Basic Policy
- (1) Identify and analyze business goals and issues through day-to-day and ongoing relationship strengthening.
 - (2) Propose optimal solutions.
 - (3) Work with customers to resolve management issues and, if necessary, propose revisions to solutions.

2. Proactive Participation in the Revitalization of the Entire Region

- Basic Policy
- Proactively participate in initiatives aimed at revitalizing the entire region, such as developing growth fields and creating high value-added through industrial agglomeration.

3. Proactive Dissemination of Information to the Region and Customers

- Basic Policy
- Proactively provide information to the region and customers with respect to specific goals and achievements of financing initiatives closely tied to the region.

In recent years, an increasing number of companies, mainly in the Tokai region's key automotive industry, have been moving into Southeast Asia, including Thailand, Vietnam, and Indonesia. In response to this trend, the Bank set up the Asia Support Team in the International Division. The Bank has extended its business support for "Asia" area, which now includes South East Asia in addition to China on which the Company has focused since before.

The Bank offers information and support on entering the Southeast Asia market through its partners as well as local social gatherings with customers.

Partners

Bangkok Bank Public Company Limited, The KASIKORNBANK Public Company Limited (Thailand)
PT. Bank Negara Indonesia (Persero) Tbk (Indonesia)
The Metropolitan Bank and Trust Company (The Philippines)
Vietcombank (Vietnam)

Achievements

Local social gatherings with customers
Bangkok (Thailand) 79 participants
Jakarta (Indonesia) 41 participants

Bank of Nagoya Asia Business Club

The Bank operates the Bank of Nagoya Asia Business Club as an organization supporting customers conducting business in Asia.

* Club membership totaled 576 as of March 31, 2014

Nantong Branch

The Nantong Branch offers services including lending, deposits, and remittances, to customers' local subsidiaries in China.

We utilize the Nantong Branch and the Shanghai Representative Office to provide support to customers entering the Chinese market. In September 2013, we held the “Factorynetwork Business Conference @ Shanghai.”

Achievements

Number of participating companies: 603 (of which 17 companies from the Bank's customer base)

Number of visitors: 8,500

The Bank's banking profit, which is the profit derived from its core operations, fell by ¥463 million year on year, to ¥9,079 million. The increase in income from government bonds and others as well as the reduction in expenses were offset by the decline in loan yields. Ordinary profit increased by ¥1,875 million year on year, to ¥8,966 million, owing to a decrease in credit-related expenses and an increase in gains on sales of stocks and other securities. Net income fell by ¥705 million, to ¥5,014 million, due to the posting of an extraordinary gain in the previous fiscal year in conjunction with the revision of the retirement benefit plan.

Medium- and Long-term Management Strategies

We have established a shared vision as a part of the three-year 19th management plan “Change! Making Changes! A Fresh Start!”—Becoming a Bank Overflowing with Satisfaction” starting in April 2014. In order to become a bank that treats customers with more sincerity than any other bank, cares about its customers more than any other bank, and is liked by everyone, all of the Bank’s executive officers and employees will make concentrated efforts to foster regional prosperity. Our main initiatives are as follows:

Building an All-Hands-In Sales Platform Through BPR

- (1) Strengthen financial services functions
 - (a) Strategy closely tied to the region
 - (b) Non-face-to-face channel strategy
 - (c) Branch strategy
- (2) Enhance sales and consulting capabilities
 - (a) CS strategy
 - (b) Personnel development / ES strategy
 - (c) Securities investment strategy

Issues to Address

In the 19th management plan which started from the fiscal year ending March 31, 2015, and to be more loyal to the Bank's guiding precepts and principles, we decided to devote ourselves to a strategy of co-existing with the local community as a precondition for sustainable co-existence with society. We will aim to accurately identify customers' needs and reform the Bank as a whole into a stronger, more flexible organization in which actions can be driven from the sales side.

Based on the principle of “fostering regional prosperity,” the Bank's current challenge is to resolve a variety of issues and work symbiotically with the region to become a bank that is truly needed in the area. With this, and backed by the trust of the region, our market share will increase, and we will aim to secure growth that will last into the future.

Management Policy

Based on the guiding precept of “fostering regional prosperity—which shall both develop the Bank and bring happiness to bank employees,” the Bank's management policy comprises the following five matters which cover the overall image of what the Bank aims to be: “Contribute to the regional community,” “Strengthen our earnings power and ensure thoroughness in risk management,” “Provide financial services that suit the needs of the customers,” “Put compliance into practice” and “Establish a free and open-minded corporate climate.” In accordance with this basic policy, we will strive to further increase our corporate value as a regional financial institution which fosters regional prosperity. At the same time, we will work to fulfill this duty and earn the unshakeable support and trust of our shareholders and all other stakeholders.

The Bank's Corporate Governance

At the Bank of Nagoya, enhancing corporate governance is one of the most important management challenges. While striving to further enhance our corporate value as a regional financial institution that fosters regional prosperity, we shall fulfill our responsibilities as a corporate citizen and work to establish unshakeable support and trust from all stakeholders, particularly the shareholders.

Based on this principle, the Bank's guiding precept is to “foster regional prosperity—which shall both develop the Bank and bring happiness to bank employees” through (1) good service—a sincere, considerate and speedy service; (2) good people—lift people, broaden people and create a cheery workplace; and (3) good management—sound and richly innovative management that seeks full participation from employees. To this end, we shall strive to share the basic sense of values and ethics of directors and employees of the Bank, and to ensure that these are reflected in the Bank's operations. We have formulated a “Code of Ethics for Bank of Nagoya Directors and Employees” and “Regulations for Complying with Laws and Regulations etc.” and through this we are striving to raise corporate value.

Risk Management System

The Bank has enhanced its risk management system by establishing the Asset Liability Management (ALM) Committee to oversee credit risk, liquidity risk, and market risk, and the Operational Risk Management Committee to oversee risks related to internal operations, such as system risk and administrative risk. The Bank also considers compliance as a top priority and aims to establish a system of checks and balances and tighten internal controls by, for example, establishing a Compliance Committee that includes members from outside the Bank, such as attorneys at law. Status of all risks the Bank should address is covered by monthly meetings of these three committees, which will be then reported to the Board of Directors. This consolidated reporting system is designed in the way to enhance the Board of Directors' ability to monitor the Bank's risk control functions.

Breakdown of Loans (Nonconsolidated basis)

Balance of problem loans under the Banking Act (risk monitored loans)

(As of March 31)

	2014 (Millions of yen)	2013 (Millions of yen)	Rate of change (%)
Total loans and bills discounted	2,110,088	2,073,987	1.74
Claims to borrowers in bankruptcy *1	2,363	4,740	-50.15
Past due loans *2	62,192	61,166	1.67
Accruing loans past due three months or more *3	104	376	-72.20
Restructured loans *4	19,020	22,219	-14.39
Ratio of risk monitored loans to total loans and bills discounted	3.97%	4.27%	-0.30%

***1 Claims to borrowers in bankruptcy**

Of non-accrual loans for which there is no prospect of payment or collection of principal and/or interest, for reasons such as the delay in payment of interest or principal having continued for a considerable period of time, those are subject to the following grounds set forth in the Order for Enforcement of the Corporation Tax Act of Japan:

- (a) Petition for commencement of reorganization proceedings pursuant to the provisions of the Corporate Reorganization Act or Act on Special Treatment of Corporate Reorganization Proceedings and Other Insolvency Proceedings of Financial Institutions.
- (b) Petition for commencement of rehabilitation proceedings pursuant to the provisions of the Civil Rehabilitation Act.
- (c) Petition for commencement of bankruptcy proceedings pursuant to the provisions of the Bankruptcy Act.
- (d) Petition for commencement of special liquidation proceedings pursuant to the provisions of the Companies Act.
- (e) Suspension of transactions through a clearing house (including bank syndicates that undertake clearing in the relevant regions when there is no clearing house)
- (f) Should there be a significant decrease in the economic value of monetary claims against foreign governments, central banks, and local governments, due to long-term delays in the performance of obligations, and should the receipt of payment be recognized as being extremely difficult.

***2 Past due loans**

These are non-accrual loans other than claims to borrowers in bankruptcy and loans for which interest payments are deferred in order to assist the financial recovery of borrowers in financial difficulties.

***3 Accruing loans past due three months or more**

These are loans for which the payment of the principal and/or interest is past due three months or more from the day following contractual payment date, excluding claims to borrowers in bankruptcy and past due loans.

***4 Restructured loan**

These are loans for which the Bank has relaxed the lending conditions for borrowers in financial difficulties—such as by a reduction of the original rate, forbearance of interest and/or principal payment, granting a maturity date extension—in order to support their financial recovery or restructuring. These exclude claims to borrowers in bankruptcy, past due loans and accruing loans past due three months or more.

Balance of problem loans under the Financial Revitalization Act

(As of March 31)

	2014 (Millions of yen)	2013 (Millions of yen)	Rate of change (%)
Bankrupt and quasi-bankrupt *5	8,807	12,887	-31.65
Doubtful *6	55,962	53,233	5.12
Need of special attention *7	19,125	22,596	-15.36
Normal *8	2,052,864	2,014,842	1.88

***5 Bankrupt and quasi-bankrupt**

These are loans to borrowers who are currently in legal bankruptcy procedures, including bankruptcy, liquidation, corporate reorganization, and rearrangement, and borrowers who are not currently in legal bankruptcy, but in quasi-bankruptcy.

***6 Doubtful**

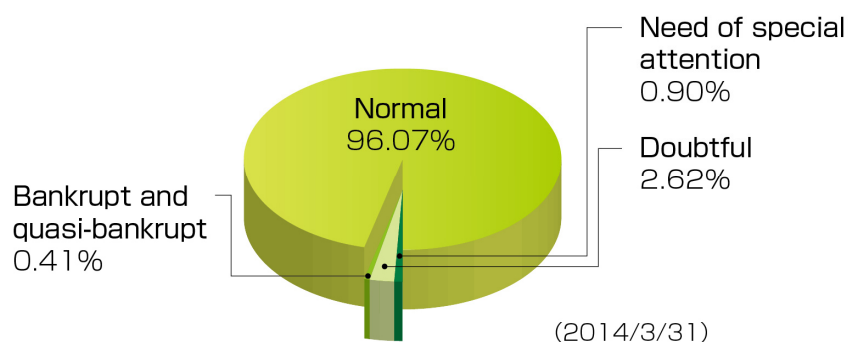

These are loans to borrowers who are not currently in bankruptcy, but in difficult financial situations and with a possibility of higher default risk.

***7 Need of special attention**

These are accruing loans past due 3 months or more (excluding those under *5 and *6), and restructured loans (excluding those under *5 and *6 and accruing loans past due three months or more).

***8 Normal**

These are loans to borrowers not having particular problems regarding their financial situations and operating conditions, and excluding loans classified as “Bankrupt and quasi-bankrupt,” “Doubtful” and “Need of special attention.”

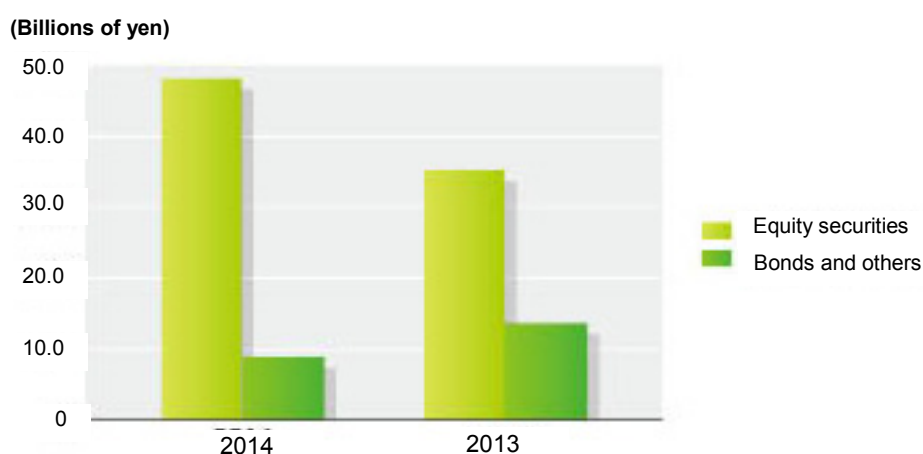

At March 31, 2014, the ratio of problem loans under the Financial Reconstruction Law was 3.93%.

Unrealized Gains on Securities (Nonconsolidated basis)

(As of March 31)

	2014 (Billions of yen)	2013 (Billions of yen)
Equity securities	48.2	35.2
Bonds and others	8.9	13.7
Total	57.2	48.9

Capital Adequacy Ratio

A credit rating is a symbol provided by a credit rating agency indicating the degree of certainty that the principle and interest on an individual bond issued by a company will be paid. It is strongly related to the evaluation of a company's creditworthiness, and in a broad sense expresses the level of confidence in a bank.

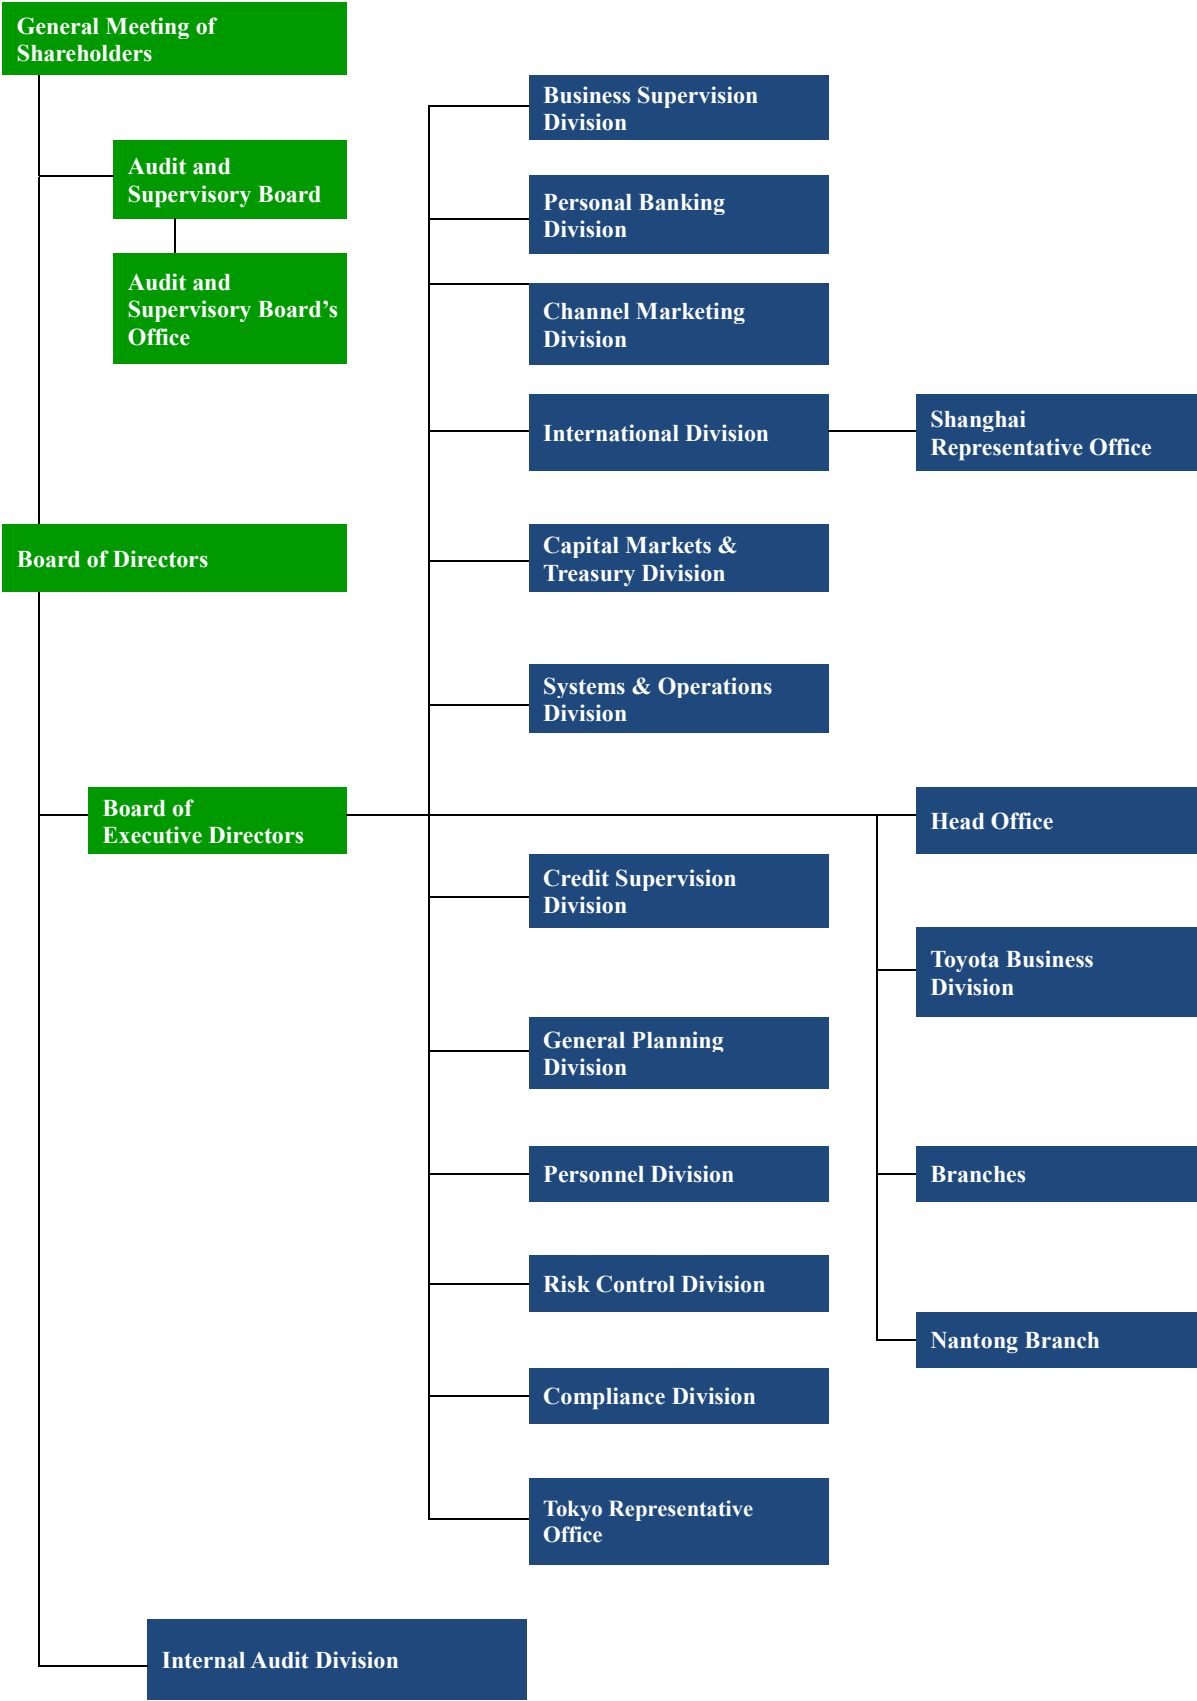

The Bank has obtained a credit rating of "A+" from Japan Credit Rating Agency, Ltd. (JCR) with respect to the Bank's long-term preferred debt. This rating indicates that the debt is investment grade, and is a high rating among Japanese financial institutions.

Rating

Japan Credit Rating Agency, Ltd. (JCR)	A ⁺	A high level of capacity to honor the financial commitment on the obligation.

Independent Auditor's Report

To the Board of Directors of The Bank of Nagoya, Ltd.:

We have audited the accompanying consolidated financial statements of The Bank of Nagoya, Ltd. and its consolidated subsidiaries, which comprise the consolidated balance sheets as at March 31, 2014 and 2013, and the consolidated statements of income, statements of comprehensive income, statements of changes in net assets and statements of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of The Bank of Nagoya, Ltd. and its consolidated subsidiaries as at March 31, 2014 and 2013, and their financial performance and cash flows for the years then ended in accordance with accounting principles generally accepted in Japan.

Convenience Translation

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2014 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 1 of Notes to the Consolidated Financial Statements.

See accompanying Notes to Consolidated Financial Statements.

The Bank of Nagoya, Ltd. and Consolidated Subsidiaries

Notes to Consolidated Financial Statements

1. Basis of Consolidated Financial Statements

The accompanying consolidated financial statements of The Bank of Nagoya, Ltd. (the “Bank”) and its consolidated subsidiaries (together with the Bank, the “Group”) have been prepared in conformity with accounting principles generally accepted in Japan (“Japanese GAAP”), which are different in certain respects as to application and disclosure requirements from the International Financial Reporting Standards. The accompanying consolidated financial statements have been restructured and translated into English from the consolidated financial statements of the Bank prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Act of Japan. Certain supplementary information included in the statutory Japanese language consolidated financial statements, but not required for fair presentation, has not been presented in the accompanying consolidated financial statements.

The amounts in Japanese yen are presented in millions of yen and are rounded down to the nearest million. Accordingly, the totals shown in the accompanying consolidated financial statements and the notes thereto may not exactly equal to the sum of the individual amounts.

The translation of the Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan, using the prevailing exchange rate at March 31, 2014, which was ¥102.92 to US\$1.00. Such translation should not be construed as representation that the Japanese yen amounts have been, could have been or could in the future be converted into U.S. dollars at such or any other rate of exchange.

Certain comparative figures have been reclassified to conform to the current year’s presentation.

2. Summary of Significant Accounting Policies

(a) Principles of consolidation

The accompanying consolidated financial statements include the accounts of the Bank and its significant subsidiaries. Both at March 31, 2014 and at March 31, 2013, the Bank had five consolidated subsidiaries primarily engaged in the business of providing a wide range of financial services to customers. A subsidiary, Aichi-Jimoto Fund for Agriculture, Forestry and Fisheries Investment Limited Partnership that was established in 2014, is excluded from the scope of consolidation as well as the scope of application of the equity method since its net income, retained earnings, accumulated other comprehensive income (each in proportion to the Bank’s interests) and assets are immaterial to the Group’s consolidated financial statements. The Bank had no affiliates at March 31, 2014 and 2013.

The difference between the cost of investments in subsidiaries and the underlying equity in their net assets adjusted based on fair value at the time of acquisition is deferred as goodwill and amortized over five years using the straight-line method. Negative goodwill resulting from the acquisition, measured as the excess of the underlying equity in the net assets over the acquisition cost, is charged to income. In consolidation, all intercompany transactions and accounts have been eliminated. In addition, all significant unrealized profits included in assets resulting from transactions within the Group have been eliminated.

(b) Cash and cash equivalents

For the purpose of the consolidated statements of cash flows, cash and cash equivalents consisted of cash and dues from banks with original maturity of three months or less at March 31, 2014 and 2013 as follows.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Cash and due from banks	¥ 152,950	¥ 174,814	\$ 1,486,110
Less due from banks whose period exceeds three months	(1,227)	(1,403)	(11,922)
Cash and cash equivalents	¥ 151,723	¥ 173,410	\$ 1,474,188

(c) Trading account securities

Trading account securities are stated at fair value at the fiscal year-end. Related gains and losses, both realized and unrealized, are included in current earnings. Accrued interest on trading account securities is included in “other assets.”

(d) Securities

Debt securities for which the Group has both the intent and the ability to hold to maturity are classified as held-to-maturity debt securities and are stated at amortized cost. In principle, available-for-sale securities other than those classified as trading or held-to-maturity debt securities are carried at fair value based on their market prices at the applicable fiscal year-end, with net unrealized gains or losses reported as component of accumulated other comprehensive income in net assets, net of applicable income taxes. Available-for-sale securities whose fair values are extremely difficult to determine are stated at moving average cost. The carrying values of individual securities are reduced, if necessary, through write-downs to reflect other-than-temporary declines in value. Gains and losses on disposal of securities are principally computed based on the moving average method. Accrued interest on securities is included in “other assets.”

(e) Derivatives and hedge accounting

The Bank uses various derivative instruments. Derivatives are recorded at fair value, with changes in fair values included in the consolidated statements of income for the period in which they arise, except for derivatives that are designated as hedging instruments and qualify for hedge accounting.

The Bank applies the deferral method of hedge accounting for hedging foreign exchange risks associated with various foreign currency denominated monetary assets and liabilities in accordance with the Industry Audit Committee Report No. 25, entitled the “Treatment of Accounting and Auditing concerning Accounting for Foreign Currency Transactions in Banking Industry” issued by the Japanese Institute of Certified Public Accountants (“JICPA”). The effectiveness of the currency swap transactions, foreign exchange swap transactions and similar transactions that hedge foreign exchange risks of monetary receivables and payables denominated in foreign currencies as described above is assessed based on the comparison of the hedged monetary receivables and payables denominated in foreign currencies and the foreign currency positions of the corresponding hedging instruments.

(f) Loans and bills discounted and reserve for possible loan losses

The reserve for possible loan losses is established based on the Bank’s management’s judgment and assessment of future losses. The Bank implements a self-assessment system for its asset quality. The quality of all loans is assessed by each of the Bank’s branches and business units, and is

subsequently examined by the Bank's Credit Supervision Division in accordance with the Bank's policy and rules for self-assessment of asset quality.

The Bank has established a credit rating system under which customers are classified into five categories. All loans are classified for self-assessment purposes into the following categories: "legal bankruptcy," "de facto bankruptcy," "bankruptcy risk," "under observation," and "normal." The Bank provides a reserve for possible loan losses at an amount deemed necessary to cover possible future losses. For claims against borrowers in legal bankruptcy and de facto bankruptcy, a reserve is provided based on the amounts of such claims, net of the amounts expected to be collected through disposal of collateral or from guarantees. For claims against borrowers who have bankruptcy risk, a reserve is provided in the amounts considered necessary based on the overall solvency assessment performed for the amounts of such claims, net of the amounts expected to be collected through disposal of collateral or from guarantees. For claims against borrowers in the "under observation" and "normal" category, a reserve is provided based on the historical loss experience of the Bank for a certain past period.

The reserve amounts recorded by consolidated subsidiaries are provided at the aggregate amount of estimated credit losses based on the individual financial review approach for doubtful or troubled claims. For other claims, an amount deemed necessary is provided as reserve taking into consideration the historical loss experience.

(g) Tangible fixed assets and depreciation (except for leases)

Tangible fixed assets are principally stated at cost less accumulated depreciation. Depreciation is computed by the declining-balance method over the estimated useful life of the asset, except for buildings (excluding facilities attached thereto) acquired on or after April 1, 1998, which are depreciated using the straight-line method. The useful lives of tangible fixed assets range as follows.

<u>2014 and 2013</u>	
Buildings	15 years to 50 years
Equipment and other	4 years to 20 years

Tangible fixed assets of the consolidated subsidiaries are mainly depreciated using the straight-line method over the estimated useful lives of such assets.

(Change in accounting policy with the amendment of respective law or regulation that is not distinguishable from change in accounting estimate)

Effective from the year ended March 31, 2013, in accordance with the amendment in Corporation Tax Law of Japan, the Group has changed its depreciation method to the method based on the amended Corporation Tax Law for tangible fixed assets acquired on or after April 1, 2012. This change had no material impact on the consolidated statements of income.

(h) Intangible fixed assets and amortization (except for leases)

Intangible fixed assets are amortized using the straight-line method. Costs of computer software developed or obtained for internal use are principally capitalized and amortized using the straight-line method over the estimated useful life of five years.

(i) Leases

(Accounting for leases as lessee)

The Group, as lessee, capitalizes the assets used under finance leases that do not transfer ownership and whose commencement day falls on or after April 1, 2008, except for certain immaterial or short-term finance leases accounted for as operating leases. Depreciation of leased assets capitalized in finance lease transactions is computed by the straight-line method over the lease term, as useful life, with the assumption of having no residual value unless residual value is guaranteed by the corresponding lease contracts.

(Accounting for leases as lessor)

A certain consolidated subsidiary engaged in leasing operations, as lessor, recognizes as “investments in leased assets” finance leases that do not transfer ownership of the leased assets to the lessee, and recognizes as “lease receivables” finance leases that transfer ownership in a manner similar to the accounting treatment for ordinary sale transactions. The total amount equivalent to interest is allocated over the lease term using the interest method, and such subsidiary recognizes as income lease payments received from customers at the time of receipt and related costs, net of imputed interest, as permitted by the accounting standard. With respect to finance leases commenced prior to April 1, 2008, the appropriate book values of fixed assets, net of accumulated depreciation, as of March 31, 2008 are recognized as the values of investments in such leased assets at April 1, 2008, and the total amount equivalent to interest is allocated over the lease term using the straight-line method. Although the revised accounting standard generally requires the use of the interest method as the principal method of calculation, it permits the use of the straight-line method during the transitional period. As a result, revenues from interests for the years ended March 31, 2014 and 2013 were ¥122 million (\$1,188 thousand) and ¥227 million more, respectively, than the amount that would have been calculated using the interest method.

(j) Impairment of fixed assets

A fixed asset is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such asset may not be recoverable. An impairment loss is recognized in the income statement by reducing the carrying amount of the impaired asset or a group of assets to the recoverable amount, measured at the higher of the asset’s net selling price or value in use. Fixed assets include land, buildings and other forms of property, as well as intangible assets, and are grouped at the lowest level at which there are identifiable cash flows separate from other groups of assets. For the purpose of recognition and measurement of an impairment loss, fixed assets, other than idle or unused property, of the Bank are grouped into cash generating units, such as operating branches and the like, and fixed assets of the consolidated subsidiaries are grouped into respective units which manage and determine income and expenses relating to such assets. The Group recognized impairment loss on fixed assets amounting to ¥330 million (\$3,209 thousand) and ¥256 million for unprofitable operating branches for the years ended March 31, 2014 and 2013, respectively. Recoverable amounts of the assets were measured based on their net selling prices, which were based on appraisal values or expected selling amounts less estimated costs of disposal. Accumulated impairment loss is deducted from the net book value of each asset.

(k) Foreign currency translation

The Group’s assets and liabilities denominated in foreign currencies, as well as the accounts of its foreign branches, are translated into Japanese yen at the exchange rate prevailing at the fiscal year-end. Revenues and expenses are translated at the exchange rate prevailing on the applicable transaction dates. Gains and losses resulting from transactions are included in the determination of net income.

(l) Reserve for employee bonuses

A reserve for employee bonuses is provided based on the estimated amount of future payments attributable to the respective year.

(m) Reserve for executive bonuses

A reserve for executive bonuses is provided for the payment of bonuses to directors and audit and supervisory board members based on the estimated amount of the payments attributable to the respective year.

(n) Reserve for employee retirement benefits

Employees who terminate their services with the Group are entitled to retirement benefits which are generally determined based on the current basic rate of pay, length of service and conditions under which the termination has occurred.

The Group has principally recognized retirement benefits based on the actuarial present value of the retirement benefit obligation using the actuarial appraisal approach and the fair value of pension plan assets available for benefits at the respective fiscal year-end.

Effective from the year ended March 31, 2014, the Group has applied the “Accounting Standard for Retirement Benefits” (Accounting Standards Boards of Japan (“ASBJ”) Statement No. 26, revised on May 17, 2012 (hereinafter, “Statement No. 26”)) and the “Guidance on Accounting Standard for Retirement Benefits” (ASBJ Guidance No. 25, revised on May 17, 2012, (hereinafter, “Guidance No. 25”)), with the exception of Article 35 of Statement No. 26 and Article 67 of Guidance No. 25, and, accordingly, actuarial differences and past service costs that are yet to be recognized in profit or loss have been recognized as retirement benefit adjustments of accumulated other comprehensive income within the net assets section, after adjusting for tax effects, and the difference between retirement benefit obligation and plan assets has been recognized as employee retirement benefit asset or liability in the balance sheet. In accordance with Article 37 of Statement No. 26, this accounting change has not been retrospectively applied to the financial statements in prior years, and the effect of the change in accounting policies arising from initial application has been recognized in retirement benefit adjustments under accumulated other comprehensive income.

As a result, as of March 31, 2014, the Group has recognized employee retirement benefit asset of ¥13,919 million (\$135,244 thousand) and employee retirement benefit liability of ¥5,725 million (\$55,628 thousand). Also, deferred tax assets decreased by ¥962 million (\$9,348 thousand), and retirement benefit adjustments of ¥1,763 million (\$17,134 thousand) were recorded as accumulated other comprehensive income at March 31, 2014.

Until the year ended March 31, 2013, unrecognized actuarial differences and unrecognized past service costs were not recognized in the balance sheet under the previous standard, and the difference between retirement benefit obligation and plan assets, adjusted by such unrecognized amounts, was recorded as “reserve for employee retirement benefits” in the balance sheet.

In the calculation of retirement benefit obligation, the expected retirement benefits are attributed to the period up to the end of the respective fiscal year based on the straight-line method. Past service costs are amortized by the straight-line method over a certain period within the average remaining years of service of employees. Actuarial differences arising from changes in the retirement benefit obligation or value of plan assets not anticipated by previous assumptions or from changes in the assumptions themselves are amortized on a straight-line basis over a certain period within the average remaining years of service of employees, measured from the year following the year in which such differences arise. In respect of the amortization period for past service costs and actuarial differences, the Bank recognizes an amortization period of 13 years as the period within the average remaining years of services of employees.

(Additional information)

Effective from April 1, 2012, the Bank revised its retirement benefit plans and transferred a part of its defined benefit pension plan to a lump-sum retirement benefit plan. Effective from April 2, 2012, the Bank transferred a part of the lump-sum retirement benefit plan to a defined contribution pension plan. In line with the above changes and in accordance with ASBJ Guidance No. 1, entitled the “Guidance on Accounting for Transfers between Retirement Benefit Plans,” the Bank recorded the effect of such changes as “gain on revision of retirement benefit plan” in the amount of ¥2,255 million for the year ended March 31, 2013.

In addition, on April 2, 2012, the Bank also revised such provisions as in regard to benefit levels for the defined benefit pension plan and the lump-sum retirement benefit plan and the like. These revisions resulted in a credit balance of unrecognized past service costs of ¥1,884 million, which has been and will be amortized as reduction of expenses using the straight-line method over 13 years, a certain period within the average remaining years of services of employees, started from the year ended March 31, 2013.

(o) Reserve for executive retirement benefits

A reserve for executive retirement benefits is provided based on the Group's internal rules in the amount that would be payable assuming the directors and audit and supervisory board members terminate their services at the balance sheet date.

(p) Reserve for losses on repayments of dormant bank accounts

In order to cover possible losses on claims from customers for repayment of dormant bank accounts which were previously recognized as income, the Bank provides a reserve to the extent of the estimated losses based on the historical loss experience taking into consideration the repayment conditions for a certain past period. A reserve for losses on repayments of dormant bank accounts was included in "other expenses" and amounted to ¥146 million (\$1,421 thousand) and ¥125 million for the years ended March 31, 2014 and 2013, respectively.

(q) Reserve for contingent loss

A reserve for contingent loss is provided at an amount deemed necessary to cover possible future losses from default of loans under the responsibility-sharing system on guarantees of loans with the Credit Guarantee Corporation based on the historical default loss experience. A reversal of reserve for contingent loss of ¥498 million (\$4,848 thousand) was included in "other income" for the year ended March 31, 2014, whereas a provision of reserve for contingent loss of ¥462 million was recorded in "other expenses" for the year ended March 31, 2013.

(r) Reserve for loss on interest repayment

In order to cover possible losses on the repayment of interests to be received from customers that exceed the upper limit of interest rates prescribed under the Interest Rate Restriction Act, two consolidated subsidiaries provide a reserve for loss on interest repayment to the extent of the estimated losses that may be incurred from repayment claims against customers for which court settlements have not been reached. Such estimated losses are based on the historical loss experience taking into consideration the repayment conditions for a certain past period.

(s) Income taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized as future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carry-forwards. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the period that includes the promulgation date.

(t) Appropriation of retained earnings

Cash dividends are recorded in the fiscal year when a proposed appropriation of retained earnings is approved by the Bank's Board of Directors and/or shareholders.

(u) Per share data

Net income per share is computed by dividing income available to common shareholders by the weighted-average number of shares of common stock outstanding during the respective year. Diluted net income per share was not disclosed as the Group had no diluted common shares for the years ended March 31, 2014 and 2013.

Cash dividends per share shown in the accompanying consolidated statements of income represent dividends declared applicable to the respective years shown.

(v) New accounting standards not yet adopted by the Group

ASBJ Statement No. 26 and ASBJ Guidance No. 25 have been issued but not yet adopted in the accompanying consolidated financial statements.

(1) Overview:

From the viewpoint of improvements to financial reporting and international convergence, the standard and guidance require changes mainly with regard to accounting treatments for unrecognized actuarial differences and past service costs, methods for calculating retirement benefit obligation and current service costs, and enhancement of disclosures.

(2) Effective date:

The Bank will adopt the revised standard in relation to methods for calculating retirement benefit obligation and current service costs from the beginning of the fiscal year ending March 31, 2015.

(3) Effects of application:

The application of the revised standard is expected to result in an increase of retained earnings by ¥642 million (\$6,242 thousand) at the beginning of the fiscal year ending March 31, 2015.

3. Financial Instruments and Related Disclosures

(a) Qualitative information on financial instruments

(1) Group policy for financial instruments

The Group undertakes deposit, loan and investment operations. Since the Group has financial assets and liabilities which mainly involve interest rate risk, the Bank has adopted the Asset Liability Management (“ALM”) system to avoid any unfavorable influence from interest rate fluctuations. Derivative transactions are also used as part of ALM.

(2) Nature of financial instruments and related risks

Financial assets held by the Group mainly comprise loans to domestic corporate entities and individuals and securities. Loans are subject to customer credit risk arising from default by borrowers. There is a possibility that the borrowers will not perform their obligations in accordance with the applicable contract terms due to economic circumstances or the like. Securities, which primarily comprise equity securities, bonds and investment trusts, are held for investment and business promotion purposes. These securities are exposed to credit risk of issuers, interest rate fluctuation risk and/or market price fluctuation risk. For securities denominated in foreign currencies, bonds denominated in foreign currencies are basically purchased at the amount up to the corresponding amount of deposits and fund procurement from the market in foreign currencies to avoid foreign exchange fluctuation risk.

Financial liabilities mainly include deposits from customers and are subject to liquidity risk. Deposits with variable interest rates are exposed to interest rate fluctuation risk.

Derivative transactions include, among others, interest rate swaps and forward foreign exchange contracts. The Group uses derivative transactions in line with ALM in order to avoid interest rate fluctuation risk in relation to deposits and loans and to fulfill the customers’ hedging requirements for foreign exchange fluctuation risk. Hedge accounting is applied to certain transactions which offset market fluctuations or fix cash flows and fulfill preliminary and subsequent requirements. Derivative transactions which do not meet the hedge accounting criteria are exposed to foreign exchange fluctuation risk and interest rate fluctuation risk.

(3) Risk management for financial instruments

(i) Credit risk management

The Group manages its credit risk by maintaining a credit exposure management system in relation to loans in accordance with its “Credit Policy” which stipulates basic concepts in relation to credit exposure management and administrative rules regarding credit risk. The system includes credit

administration of loans and credit lines, administration of credit records and internal ratings as well as establishment of guarantees or collateral and handling of doubtful loans. These credit exposure management procedures are performed by each of the Group's sales branches and loan departments and are reported to the Board of Executive Directors and/or Board of Directors on a routine basis.

Credit risk of issuers of securities and counterparty risk of derivative transactions are managed by the Bank's Capital Markets and Treasury Division which monitors credit information and fair values on a regular basis.

(ii) Market risk management

(a) Interest risk management

The Group has established the ALM committee for the purpose of recognizing and managing interest rate fluctuation risk comprehensively and pursuing appropriate ALM. Risk control methods and procedures are stipulated in the ALM committee codes, and the ALM committee operates in accordance with the management policy of ALM determined at the Board of Directors' meeting. The status of implementation is monitored, and actions to be taken in the future are discussed at the Board of Directors' meeting. On a daily basis, the Bank's Risk Control Division comprehensively checks interest rates and periods of financial assets and liabilities, monitors risks using gap analysis and interest rate sensitivity analysis and reports to the ALM committee and Board of Directors monthly. Interest rate swap transactions are also used under the ALM system to avoid interest rate fluctuation risk.

(b) Foreign exchange risk management

The Group manages foreign exchange fluctuation risk by transaction and enters into forward foreign exchange contracts to avoid foreign exchange fluctuation risk on transactions with customers.

(c) Market price fluctuation risk management

The Group holds investment products including securities based on marketable securities investment planning determined by the Board of Executive Directors in accordance with basic market fluctuation risk management rules of the Board of Directors. Since the Bank's Capital Markets and Treasury Division purchases investment products from outside, market price fluctuation risk is reduced through consecutive monitoring as well as preliminary review and setup of investment limits. Most of the equity securities managed by the Bank's Planning Division are for business promotion purposes, and market conditions and financial statuses of customers are monitored and reported to the Board of Executive Directors on a regular basis.

(d) Derivative transactions

For derivative transactions, an internal checking system has been established through segregating the operation, custody and evaluation of hedge effectiveness.

(e) Quantitative information on market risk

i) Financial instruments for trading purposes

The Group uses the historical simulation method (based on the assumptions of a holding period of 120 business days, 99% confidence level and observation period of 1,200 business days) for the calculation of interest-related Value at Risk (VaR) of trading account securities. As of March 31, 2014 and 2013, the market risk exposures (the expected maximum loss) of the Group's trading operation amounted to ¥0 million (\$2 thousand) and ¥1 million, respectively.

ii) Financial instruments other than for trading purposes

Market risk is the primary risk factor to the Group. The major financial instruments subject to market risk are “loans and bills discounted,” debt and equity securities and investment trusts included in “securities” and “deposits” and interest rate swaps included in “derivatives.” The historical simulation method (based on the assumptions of a holding period of 120 business days, 99% confidence level and observation period of 1,200 business days) is used for the calculation of VaR of these financial assets and liabilities. As of March 31, 2014 and 2013, the market risk exposures (the expected maximum loss) of the Bank’s banking operations were as follows.

	Value at Risk		
	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Securities for investment purposes (*1)	¥ 9,659	¥ 13,792	\$ 93,854
Strategically held equity securities	18,326	31,560	178,065
Loans and deposits (*2)	7,101	7,341	69,002

Notes:

(*1) Securities for investment purposes: yen bonds, foreign bonds, equity securities for investment purposes, investment trusts and OTC options

(*2) Loans and deposits: deposits, negotiable certificates of deposit, loans and bills discounted, interest rate swaps for ALM hedging purposes, call loans, dues from banks and others

iii) Supplementary explanation about quantitative information on market risk

The Group evaluates the effectiveness of its measurement model by performing back-testing procedures to compare VaR calculated by the measurement system with actual gain or loss. VaR provides information regarding market risk exposure, which is statistically calculated under certain probability based on historical market fluctuations; therefore, it may not be able to measure risks under a situation where the market environment changes extraordinarily.

(iii) Management of liquidity risk associated with fund raising

The Group regards stable fund raising as its top priority and conducts fund management on a timely basis. In addition, the Group manages liquidity risk by diversifying means of fund raising and adjusting the balances of long-term and short-term accounts taking into consideration the market condition.

(4) Supplementary explanation on fair values

The fair values of financial instruments are based on their market prices. If a market price is not available, another rational valuation technique is used instead. Since certain assumptions are used when calculating fair values, different assumptions may lead to different fair values.

(b) Fair values of financial instruments

The carrying values and fair values of financial instruments at March 31, 2014 and 2013 were as follows.

	Millions of yen		
	2014		
	Carrying value	Fair value	Difference

Total	\$ (14,233)	\$ (14,233)	\$ –

Notes:

(*1) The following securities were excluded from the above table because management of the Bank concluded that their fair values were virtually impossible to estimate.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Unlisted stocks *1	¥ 4,331	¥ 4,349	\$ 42,082
Investments in partnerships *2		–	4
Total	¥ 4,331	¥ 4,349	\$ 42,086

*1 The Group wrote off unlisted stocks amounting to ¥18 million (\$176 thousand) and ¥30 million for the years ended March 31, 2014 and 2013, respectively.

*2 The fair values of investments in partnerships that comprised assets whose fair values could not be reliably determined, such as unlisted stocks and the like, were not disclosed.

(*2) General and individual reserves for possible loan losses corresponding to loans and bills discounted were deducted.

(*3) Derivative transactions show the net amounts after offsetting related receivables and payables, and amounts in parentheses denote net payables.

Details of the methodologies and assumptions used to calculate fair values of financial instruments are summarized below.

Financial assets:

Cash and due from banks

Since the carrying values of dues from banks on demand or with an original maturity of up to one year approximately equal the fair values of such dues, the carrying values of such instruments are deemed to be their fair values. For due from banks with an original maturity exceeding one year, its present value is calculated by discounting such due from banks by the remaining term to maturity at the

corresponding rate applicable to the Group for a new transaction.

Call loans and bills purchased

The carrying values of call loans and bills purchased approximate their fair values because of their short maturities (original maturities of up to one year).

Trading account securities

The fair values of trading account securities held for trading operation are based on the price published by Japan Securities Dealers Association (“JSDA”) or provided by the applicable contracted financial institution.

Securities

The fair values of equity securities, bonds and investment trusts are based on the quoted market price at the applicable exchange, the price published by JSDA or provided by the applicable contracted financial institution and publicly available net asset value, respectively. The fair values of privately-placed bonds are determined by discounting the estimated future cash flows at the risk free rate plus credit spread or the like. The fair values of securities issued by issuers in legal bankruptcy or de facto bankruptcy, or who have bankruptcy risk, are calculated based on the present value of estimated future cash flows or the amount expected to be collected through disposal of collateral or from guarantees.

Loans and bills discounted

The fair values of commercial bills, loans on bills and overdrafts which have short maturities (original maturities of up to one year) are approximately equal to their carrying values unless the credit status of the borrower has changed dramatically after execution thereof because of quick reflection of market interest rates to such change. Therefore, the carrying values of these instruments are deemed to be their fair values. The fair values of loans on deeds are determined by discounting the estimated future cash flows at the risk free rate plus credit spread or the like, or at the corresponding rate applicable to the Group for a similar new loan, depending on the nature of such loans. The fair values of structured loans are determined by considering the value calculated by using the option pricing model, in addition to using the method applicable to measuring the fair values of loans on deeds as mentioned above. For loans to borrowers in legal bankruptcy or de facto bankruptcy, or who have bankruptcy risk, a reserve for possible loan losses is estimated based on the present value of estimated future cash flows or the amount expected to be collected through disposal of collateral or from guarantees. Thus, the fair values of such loans approximate the carrying amounts of receivables minus the corresponding amount of reserve for possible loan losses on the consolidated balance sheets at the closing date. Therefore, such carrying amounts are deemed to be the fair values of such loans. The carrying values of loans and bills discounted without repayment terms due to characteristics, such as limitations on loans to the range of collateral assets and the like, are deemed to be their fair values since such carrying values approximately equal their fair values when considering the expected repayment period and interest rate conditions for such loans and bills discounted without repayment terms.

Financial liabilities:

Deposits

The fair values of demand deposits in Japanese yen are deemed to be the amounts to be paid (carrying amounts) on the assumption that the Group is demanded to pay on the consolidated balance sheet date. The fair values of time deposits in Japanese yen and negotiable certificates of deposit are determined by discounting future cash flows by the term to maturity at the corresponding rate used for accepting a new deposit. For all deposits in foreign currencies, original maturities are short (within one year) and their carrying values approximate their fair values. Thus, such carrying values are deemed to be the fair values of such deposits in foreign currencies.

Call money and bills sold

The original maturities of call money and bills sold are short (within one year) and their carrying values approximate their fair values. Thus, such carrying values are deemed to be the fair values of such call money and bills sold.

Payables under securities lending transactions

The original maturities of payables under securities lending transactions are short (within one year) and their carrying values approximate their fair values. Thus, such carrying values are deemed to be the fair values of such payables under securities lending transactions.

Borrowed money

The carrying value of borrowed money with variable interest rate is deemed to be the fair value since such carrying value approximates the fair value. This is due to the quick reflection of market interest rates and immaterial changes in the credit status of the Bank and the subsidiaries after execution of such borrowing. The fair value of borrowed money with a fixed interest rate is the present value determined by discounting the sum of principal and interest by the term to maturity at the corresponding rate for a similar borrowing. For borrowed money with a short maturity (original maturity of up to one year), the carrying value is deemed to be the fair value since such carrying value approximates the fair value.

4. Trading Account Securities and Securities

At March 31, 2014 and 2013, securities consisted of the following.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
National government bonds	¥ 327,076	¥ 345,156	\$ 3,177,966
Local government bonds	97,607	95,476	948,383
Bonds and debentures	340,910	313,204	3,312,385
Equity securities	104,052	90,790	1,011,002
Other securities	79,097	63,666	768,531
	<u>¥ 948,744</u>	<u>¥ 908,294</u>	<u>\$ 9,218,267</u>

Securities are classified as trading, held-to-maturity or available-for-sale securities. Such classification determines the respective accounting method to be applied as stipulated under the accounting standard for financial instruments. Trading account securities and securities in the accompanying consolidated balance sheets include marketable securities traded on stock exchanges.

At March 31, 2014 and 2013, the carrying values of trading account securities and the related valuation differences included in the consolidated statements of income were as follows.

	Millions of yen				Thousands of U.S. dollars	
	2014		2013		2014	
	Carrying value	Valuation difference	Carrying value	Valuation difference	Carrying value	Valuation difference
Trading account securities	¥ 16	¥ 0	¥ 100	¥ 0	\$ 158	\$ 0

At March 31, 2014 and 2013, gross unrealized gains and losses on available-for-sale securities with fair values were summarized as follows.

	Millions of yen			
	Acquisition cost	Gross unrealized gains	Gross unrealized losses	Fair and carrying value
Available-for-sale securities with fair values at March 31, 2014:				
Equity securities	¥ 51,415	¥ 49,377	¥ (1,072)	¥ 99,721
Bonds:				
National government bonds	324,112	2,971	(7)	327,076
Local government bonds	96,075	1,537	(5)	97,607
Bonds and debentures	336,542	4,433	(65)	340,910
Others	78,999	648	(551)	79,096
	<u>¥ 887,145</u>	<u>¥ 58,969</u>	<u>¥ (1,701)</u>	<u>¥ 944,412</u>
Available-for-sale securities with fair values at March 31, 2013:				
Equity securities	¥ 51,168	¥ 36,530	¥ (1,258)	¥ 86,441
Bonds:				
National government bonds	340,442	4,719	(5)	345,156
Local government bonds	93,347	2,129	–	95,476

Others	62,370	1,386	(89)	63,666
	<u>¥ 854,945</u>	<u>¥ 50,481</u>	<u>¥ (1,482)</u>	<u>¥ 903,945</u>
Thousands of U.S. dollars				
Available-for-sale securities with fair value at March 31, 2014:				
Equity securities	\$ 499,569	\$ 479,770	\$ (10,418)	\$ 968,921
Bonds:				
National government bonds	3,149,168	28,875	(77)	3,177,966
Local government bonds	933,495	14,941	(53)	948,383
Bonds and debentures	3,269,943	43,075	(633)	3,312,385
Others	767,581	6,300	(5,355)	768,526
	<u>\$ 8,619,756</u>	<u>\$ 572,961</u>	<u>\$ (16,536)</u>	<u>\$ 9,176,181</u>

At March 31, 2014 and 2013, net unrealized gains on available-for-sale securities, net of applicable income taxes and minority interests, included in accumulated other comprehensive income of net assets on the accompanying consolidated balance sheets were as follows.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Unrealized gains	¥ 57,267	¥ 48,999	\$ 556,425
Deferred tax liabilities	(19,365)	(16,458)	(188,162)
Minority interests portion	(2)	(3)	(23)
Net unrealized gains in net assets	¥ 37,899	¥ 32,538	\$ 368,240

During the years ended March 31, 2014 and 2013, the Group sold available-for-sale securities and recorded gains of ¥1,673 million (\$16,260 thousand) and ¥775 million, respectively, and losses of ¥337 million (\$3,284 thousand) and ¥576 million, respectively, in the accompanying consolidated statements of income.

For the years ended March 31, 2014 and 2013, the Group recorded losses on write-downs of available-for-sale securities with fair values due to other-than-temporary declines in value amounting to ¥179 million (\$1,742 thousand) and ¥100 million, respectively.

5. Loans and Bills Discounted

At March 31, 2014 and 2013, loans and bills discounted consisted of the following.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Bills discounted	¥ 46,359	¥ 53,136	\$ 450,445
Loans on bills	144,473	152,567	1,403,745
Loans on deeds	1,664,557	1,609,723	16,173,313
Overdrafts	248,008	251,633	2,409,726
Others	6,375	5,269	61,942
	¥ 2,109,774	¥ 2,072,332	\$ 20,499,171

Bills discounted are accounted for as finance transactions in accordance with JICPA Industry Audit Committee Report No. 24, entitled the “Treatment of Accounting and Auditing concerning Application of Accounting Standard for Financial Instruments in Banking Industry.” The Group has rights to sell or pledge (repledge) bankers’ acceptances, commercial bills, documentary bills and foreign bills bought without restrictions. The total face values of these bills amounted to ¥47,312 million (\$459,705 thousand) and ¥54,430 million at March 31, 2014 and 2013, respectively.

Claims against borrowers in bankruptcy and past due loans are included in “loans and bills discounted” and amounted to ¥64,681 million (\$628,465 thousand) and ¥66,028 million at March 31, 2014 and 2013, respectively. Loans are generally placed on non-accrual status when there is substantial doubt about the ultimate collectability of either the principal or interest because such principal or interest is past due for a considerable period or for other reasons. Accrued interest is not recorded when loans are classified as claims against borrowers in bankruptcy or past due loans. Claims against borrowers in bankruptcy represent non-accrual loans after charge-off against legally bankrupt borrowers as defined in Article 96, Paragraph 1, Subparagraphs 3 and 4 of the Order for Enforcement of the

Corporation Tax Law of Japan. Other than claims against borrowers in bankruptcy and loans for which interest payments are deferred in order to assist the financial recovery of borrowers in financial difficulties, past due loans are recognized as non-accrual loans.

At March 31, 2014 and 2013, accruing loans for which the payment of principal or interest was contractually past due by three months or more, excluding non-accrual loans, amounted to ¥104 million (\$1,017 thousand) and ¥376 million, respectively.

At March 31, 2014 and 2013, restructured loans (excluding non-accrual and accruing loans contractually past due by three months or more as mentioned above) for which the Bank had restructured the terms and conditions in favor of the borrowers in financial difficulties, such as through reduction or exemption of the original interest rate, extension of interest payments and/or principal repayments and debt forgiveness, in order to support the financial recovery or restructuring of such borrowers amounted to ¥21,705 million (\$210,898 thousand) and ¥24,974 million, respectively.

Total non-performing loans before charge-offs, which consist of non-accrual loans, accruing loans contractually past due by three months or more and restructured loans, amounted to ¥86,491 million (\$840,380 thousand) and ¥91,379 million at March 31, 2014 and 2013, respectively.

6. Tangible Fixed Assets

At March 31, 2014 and 2013, major classifications of accounts were as follows.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Land	¥ 23,740	¥ 23,620	\$ 230,673
Buildings and structures	7,901	8,229	76,778
Equipment	4,318	3,779	41,959
Leased assets as lessee	0	4	4
Construction in progress	296	283	2,883
Tangible fixed assets	<u>¥ 36,258</u>	<u>¥ 35,918</u>	<u>\$ 352,297</u>

At March 31, 2014 and 2013, accumulated depreciation for tangible fixed assets amounted to ¥31,134 million (\$302,516 thousand) and ¥31,983 million, respectively.

The Bank elected one-time revaluation to restate the cost of land used for the banking business at values rationally reassessed and reflecting appropriate adjustments for geographical shape and other factors based on the municipal property tax bases effective on March 31, 1998 under the Act on Revaluation of Land. According to such Act, the amount equivalent to the tax effect on the excess of reassessed values over the original book values is recorded as “deferred tax liabilities for revaluation,” and the rest of such excess, net of the tax effect, is recorded as “land revaluation excess” under accumulated other comprehensive income of net assets in the consolidated balance sheets. At March 31, 2014 and 2013, the differences in the carrying values of land used for the banking business after revaluation over market values amounted to ¥9,446 million (\$91,788 thousand) and ¥9,474 million, respectively.

As permitted by Japanese GAAP, deferred capital gains on the sale of real property are deducted from the original acquisition costs of property which is newly acquired for replacement purposes in the same line of business as the property sold by the Bank. At March 31, 2014 and 2013, ¥1,792 million (\$17,420 thousand) and ¥1,794 million, respectively, were directly deducted from the acquisition costs of land.

7. Pledged Assets

The carrying amounts of assets pledged as collateral and related collateralized debt at March 31, 2014 and 2013 were as follows.

	Millions of yen		Thousands of U.S. dollars	
	2014	2013	2014	
Assets pledged:				
Securities	¥ 37,042	¥ 35,429	\$ 359,912	
Other assets	20	20	199	
Related collateralized debts:				
Deposits	¥ 16,144	¥ 4,176	\$ 156,865	
Payables under securities lending transactions	4,086	2,879	39,703	
Borrowed money	3,337	1,970	32,433	

In addition, securities amounting to ¥64,781 million (\$629,437 thousand) and ¥65,870 million at March 31, 2014 and 2013, respectively, were pledged as collateral for the settlement of exchange and other transactions.

8. Deposits

At March 31, 2014 and 2013, deposits consisted of the following.

	Millions of yen		Thousands of U.S. dollars	
	2014	2013	2014	
Demand deposits	¥ 1,650,388	¥ 1,623,787	\$ 16,035,647	
Time deposits	1,247,938	1,240,566	12,125,327	
Other deposits	50,482	45,363	490,501	
Subtotal	2,948,809	2,909,717	28,651,475	
Negotiable certificates of deposit	53,005	46,340	515,012	
	¥ 3,001,814	¥ 2,956,057	\$ 29,166,487	

9. Borrowed Money and Finance Lease Obligations

Borrowed money consisted principally of borrowings from financial institutions due through January 2019 with average interest rates of 0.63% and 0.77% per annum at March 31, 2014 and 2013, respectively. Finance lease obligations of ¥0 million (\$4 thousand) and ¥5 million at March 31, 2014 and 2013, respectively, were included in “other liabilities” in the accompanying consolidated balance sheets.

At March 31, 2014, the annual maturities of borrowed money and finance lease obligations were as follows.

Year ending March 31,	Millions of yen		Thousands of U.S. dollars	
	Borrowed money	Finance lease obligations	Borrowed money	Finance lease obligations
2015	¥ 10,162	¥ 0	\$ 98,746	\$ 3
2016	3,975	0	38,622	1
2017	3,175	—	30,849	—
2018	2,000	—	19,433	—
2019	750	—	7,287	—
	¥ 20,062	¥ 0	\$ 194,937	\$ 4

10. Employee Retirement Benefits

The Bank has a defined benefit pension plan and lump-sum retirement benefit plan that together substantially cover all employees. In addition, the Bank transferred a part of its defined benefit pension plan to a lump-sum retirement benefit plan on April 1, 2012 and a part of the lump-sum retirement benefit plan to a defined contribution pension plan on April 2, 2012. One of the Bank’s consolidated subsidiaries participates in a multi-employer pension program under a certain public pension plan as part of the lump-sum retirement benefit plan. The Bank’s other four consolidated subsidiaries have each adopted only the lump-sum retirement benefit plan. The retirement benefit obligation of consolidated subsidiaries with less than 300 employees was calculated using the simplified calculation method as permitted under the accounting standard for employee retirement benefits.

For the year ended March 31, 2014

(a) Defined benefit plans

(1) Movement in retirement benefit obligation, excluding plans applying the simplified method:

	Millions of yen	Thousands of U.S. dollars
	2014	2014
Balance at beginning of year	¥ 32,910	\$ 319,771
Service cost	789	7,672
Interest cost	493	4,796
Actuarial differences	(292)	(2,840)
Retirement benefits paid	(2,048)	(19,908)
Balance at end of year	¥ 31,852	\$ 309,491

(2) Movement in plan assets, excluding plans applying the simplified method:

	Millions of yen	Thousands of U.S. dollars
	2014	2014
Balance at beginning of year	¥ 36,393	\$ 353,614
Expected return on pension plan assets	589	5,731
Actuarial differences	3,431	33,346
Contribution paid by the employer	1,046	10,165
Retirement benefits paid	(1,210)	(11,758)
Others	0	8
Balance at end of year	¥ 40,252	\$ 391,106

(3) Movement in retirement benefit liability for plan applying the simplified method:

	Millions of yen	Thousands of U.S. dollars
	2014	2014
Retirement benefit liability at beginning of year	¥ 123	\$ 1,202
Retirement benefit expenses	36	350
Retirement benefits paid	(32)	(311)
Retirement benefit liability at end of year	¥ 127	\$ 1,241

(4) Reconciliation from retirement benefit obligation and plan assets to retirement benefit (asset)/liability recognized in the consolidated balance sheets:

	Millions of yen	Thousands of U.S. dollars
	2014	2014
Funded retirement benefit obligation	¥ 32,003	\$ 310,954
Plan assets	(40,252)	(391,106)
	(8,249)	(80,152)
Unfunded retirement benefit obligation	55	536
Net retirement benefit (asset)/liability	¥ (8,194)	\$ (79,616)
Employee retirement benefit liability	¥ 5,725	\$ 55,628
Employee retirement benefit asset	(13,919)	(135,244)
Net retirement benefit (asset)/liability	¥ (8,194)	\$ (79,616)

(5) Net periodic retirement benefit expense and its breakdown:

	Millions of yen	Thousands of U.S. dollars
	2014	2014
Service cost	¥ 789	\$ 7,672
Interest cost	493	4,797
Expected return on plan assets	(589)	(5,731)
Amortization of actuarial differences	927	9,007
Amortization of past service costs	(90)	(876)
Retirement benefit expenses for plans applying the simplified method	36	350
Net periodic retirement benefit expense of defined benefit plans	¥ 1,566	\$ 15,219

(6) Retirement benefit adjustments in accumulated other comprehensive income, before tax effects:

	Millions of yen	Thousands of U.S. dollars
	2014	2014
Unrecognized past service costs	¥ 1,594	\$ 15,494
Unrecognized actuarial differences	1,130	10,988
Total	¥ 2,725	\$ 26,482

(7) Plan assets

(i) Plan assets comprise:

	2014
Debt securities	41%
Equity securities	41%
Cash and deposits	7%
General accounts	11%
Total *	100%

Note: 44% of plan assets consisted of retirement benefit trusts that are set up for the defined benefit pension plan and lump-sum retirement benefit plan.

(ii) Determination of long-term expected rate of return on plan assets

In determining the long-term expected rate of return on plan assets, the Group considers the current and target asset allocations as well as the current and expected long-term rate of return on various asset categories comprising plan assets.

(8) Actuarial assumptions at end of year:

	2014
Discount rate	1.5%
Long-term expected rate of return on plan assets	2.5%

(b) Defined contribution plan

The required contribution of the Bank and its consolidated subsidiaries to the defined contribution plan amounted to ¥157 million (\$1,533 thousand) for the year ended March 31, 2014.

For the year ended March 31, 2013

The following table reconciles the benefit liabilities and net periodic retirement benefit expense as of and for the year ended March 31, 2013.

	<u>Millions of yen</u>
	<u>2013</u>
Reconciliation of benefit liabilities:	
Retirement benefit obligation	¥ 33,103
Less fair value of pension plan assets at end of year	<u>(36,393)</u>
Pension plan assets in excess of retirement benefit obligation	(3,290)
Unrecognized actuarial differences	(3,520)
Unrecognized prior service cost	<u>1,684</u>
Net amounts of reserve for employee retirement benefits	(5,126)
Prepaid pension cost	<u>11,128</u>
Reserve for employee retirement benefits recognized in the consolidated balance sheets	<u>¥ 6,002</u>

	<u>Millions of yen</u>
	<u>2013</u>
Components of net periodic retirement benefit expense:	
Service cost	¥ 859
Interest cost	502
Expected return on pension plan assets	(531)
Amortization of past service costs	(90)
Amortization of actuarial differences	1,233
Others, including contributions to defined contribution benefit plan	<u>163</u>
Net periodic retirement benefit expense	<u>¥ 2,137</u>

Major assumptions used in the calculation of the above information for the year ended March 31, 2013 are as follows.

	<u>2013</u>
Method attributing the projected benefits to periods of services	Straight-line method
Discount rate	1.50%
Expected rate of return on plan assets	2.50%
Amortization period of past service costs	13 years
Amortization period of actuarial differences	13 years

11. Acceptances and Guarantees

The Bank provides guarantees with respect to liabilities of its customers for payment of loans or other liabilities with other financial institutions. As a contra account, “customers’ liabilities for acceptances and guarantees” has been shown in assets on the accompanying consolidated balance sheets, indicating the Bank’s right of indemnity from customers.

Guarantees are provided on certain privately-placed bonds included in securities in accordance with Article 2, Paragraph 3 of the Financial Instruments and Exchange Act of Japan. The guarantees amounted to ¥13,443 million (\$130,625 thousand) and ¥14,982 million at March 31, 2014 and 2013, respectively.

12. Net Assets

At both March 31, 2014 and 2013, the authorized number of shares of common stock without par value was 500 million shares, and the number of shares of common stock issued was 205,054,873 shares. At March 31, 2014 and 2013, the number of shares of treasury stock held by the Group was 436 thousand and 412 thousand shares, respectively.

Under Japanese laws and regulations, the entire amount paid for new shares is required to be designated as common stock. However, a company may, by a resolution of the Board of Directors, designate an amount not exceeding one-half of the issue price of the new shares as additional paid-in capital, which is included in capital surplus.

Capital surplus consists principally of additional paid-in capital. The Banking Act of Japan provides that an amount equivalent to at least 20% of the cash payments as appropriation of retained earnings shall be appropriated as legal earnings reserve until the total amount of additional paid-in capital and such reserve equals 100% of common stock. The legal earnings reserve has been included in the retained earnings in the accompanying consolidated balance sheets. Under such Act, the legal earnings reserve and additional paid-in capital can be used to eliminate or reduce a deficit by a resolution at the shareholders’ meeting. The additional paid-in capital and legal earnings reserve may not be distributed as dividends. All additional paid-in capital and legal earnings reserve may be transferred to other capital surplus and retained earnings, respectively, which may become available for distribution as dividends. Both at March 31, 2014 and 2013, the legal earnings reserve amounted to ¥8,029 million (\$78,021 thousand).

The maximum amount that the Bank can distribute as dividends is calculated based on the nonconsolidated financial statements of the Bank in accordance with Japanese laws and regulations.

13. Commitments

(a) Loan commitments

Overdraft facilities and loan commitment lines are contracts under which the Bank is obligated to advance funds up to a predetermined amount to a customer upon request, provided that the customer has met the terms and conditions of the applicable contract. At March 31, 2014 and 2013, the unused amounts within the limits relating to these contracts amounted to ¥675,542 million (\$6,563,759 thousand) and ¥654,706 million, respectively. Such outstanding contract amounts included amounts which originally expire within one year or are revocable by the Bank at any time without any conditions in the amounts of ¥665,707 million (\$6,468,200 thousand) and ¥645,429 million at March 31, 2014 and 2013, respectively.

Since many of these commitments expire without being drawn down, the unused amount does not necessarily represent a future cash requirement. Most of these contracts have conditions that allow the Bank to refuse customers' applications for loans or decrease the contract limits for appropriate reasons (e.g., changes in financial situation, deterioration in customers' creditworthiness or the like). At the execution of such contracts, the Bank obtains real estate, securities, etc. as collateral if considered necessary. Subsequently, the Bank performs periodic reviews of customers' business results based on internal rules and may take necessary measures that include reconsidering conditions of such contracts and/or requiring additional collateral and/or guarantees.

(b) Lease commitments

(Lessee contracts)

The Group leases certain office space and equipment as lessee under long-term non-cancellable lease contracts. The aggregate future minimum lease commitments for non-cancellable operating leases at March 31, 2014 and 2013 were as follows.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Operating leases as lessee:			
Due within one year	¥ 466	¥ 470	\$ 4,529
Due after one year	378	590	3,676
	<u>¥ 844</u>	<u>¥ 1,061</u>	<u>\$ 8,205</u>

(Lessor contracts)

A consolidated subsidiary engaged in leasing operations as lessor entered into various long-term, non-cancellable lease contracts with third parties, which were categorized as finance leases. At March 31, 2014 and 2013, investments in leased assets as lessor consisted of the following.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Future minimum lease payments to be received	¥ 22,942	¥ 23,089	\$ 222,919
Estimated residual value	1,892	1,887	18,386
Imputed interest	(2,250)	(2,565)	(21,869)
Investments in leased assets	<u>¥ 22,584</u>	<u>¥ 22,411</u>	<u>\$ 219,436</u>

The aggregate annual maturities of future minimum lease payments to be received related to investments in leased assets at March 31, 2014 were as follows.

Year ending March 31,	Millions of yen	Thousands of U.S. dollars
2015	¥ 7,578	\$ 73,639
2016	5,711	55,491
2017	4,286	41,652
2018	2,895	28,134
2019	1,551	15,071
2020 and thereafter	919	8,932
	<u>¥ 22,942</u>	<u>\$ 222,919</u>

At March 31, 2014 and 2013, future lease payments to be received for non-cancellable operating leases were as follows.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Operating leases as lessor:			
Due within one year	¥ 84	¥ 135	\$ 820
Due after one year	75	86	731
	<u>¥ 159</u>	<u>¥ 221</u>	<u>\$ 1,551</u>

14. Derivative Instruments

At March 31, 2014 and 2013, derivative instruments, other than those to which hedge accounting was applied, were stated at fair value with valuation gains and losses recognized as current earnings in the accompanying consolidated statements of income as follows.

	Millions of yen					
	Notional principals or contract amounts					
	Total		Over one year		Fair value *	Valuation gain/(loss)
At March 31, 2014:						
Interest rate swaps	¥	20,000	¥	20,000	¥ (1,085)	¥ (1,085)
Currency swaps		26,393		—	(356)	(356)
Forward foreign exchange contracts		5,183		—	(14)	(14)
At March 31, 2013:						
Interest rate swaps	¥	20,000	¥	20,000	¥ (1,311)	¥ (1,311)
Currency swaps		14,212		—	(361)	(361)
Forward foreign exchange contracts		2,518		—	(31)	(31)
	Thousands of U.S. dollars					
At March 31, 2014:						
Interest rate swaps	\$	194,326	\$	194,326	\$ (10,544)	\$ (10,544)
Currency swaps		256,446		—	(3,461)	(3,461)
Forward foreign exchange contracts		50,365		—	(144)	(144)

Note: Fair values were calculated based on the discounted cash flow method, etc.

Derivative instruments to which hedge accounting was applied at March 31, 2014 and 2013 were as follows.

Millions of yen					
	Hedged item	Notional principals or contract amounts			
		Total	Over one year	Fair value *	
Currency swap contracts:					
As of March 31, 2014	Loans in foreign currencies	¥ 329	¥ —	¥ (8)	
As of March 31, 2013	Loans in foreign currencies	680	—	(40)	
Thousands of U.S. dollars					
Currency swap contracts:					
As of March 31, 2014	Loans in foreign currencies	\$ 3,198	\$ —	\$ (84)	

Note: Fair values were calculated based on the discounted cash flow method, etc.

15. Income Taxes

Income taxes for the years ended March 31, 2014 and 2013 consisted of the following.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Income taxes:			
Current	¥ 2,424	¥ 3,963	\$ 23,561
Deferred	1,659	283	16,125
	<u>¥ 4,084</u>	<u>¥ 4,246</u>	<u>\$ 39,686</u>

At March 31, 2014 and 2013, income taxes (including enterprise taxes) payable amounting to ¥1,912 million (\$18,580 thousand) and ¥3,188 million, respectively, were included in “other liabilities” in the accompanying consolidated balance sheets.

The tax effects of temporary differences that gave rise to a significant portion of deferred tax assets and liabilities at March 31, 2014 and 2013 were as follows.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Deferred tax assets:			
Reserve for possible loan losses	¥ 6,993	¥ 8,126	\$ 67,949
Reserve for employee retirement benefits	—	3,766	—
Employee retirement benefit (asset)/liability	2,600	—	25,263
Loss on devaluation of stocks and other securities	2,994	3,038	29,094
Reserve for contingent loss	1,212	1,431	11,779
Depreciation	881	988	8,562
Others	3,599	3,730	34,979
Less valuation allowance	<u>(4,910)</u>	<u>(4,775)</u>	<u>(47,712)</u>
Subtotal	13,370	16,307	129,914
Deferred tax liabilities:			
Unrealized gains on available-for-sale securities	(19,365)	(16,458)	(188,162)
Gain on transfer of securities to trusts for retirement benefit plan	(3,325)	(3,601)	(32,309)
Others	<u>(100)</u>	<u>(100)</u>	<u>(975)</u>
Subtotal	<u>(22,791)</u>	<u>(20,159)</u>	<u>(221,446)</u>
Net deferred tax assets(liabilities)	<u>¥ (9,420)</u>	<u>¥ (3,852)</u>	<u>\$ (91,532)</u>

At March 31, 2014 and 2013, deferred tax assets and liabilities were as follows.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Deferred tax assets	¥ 1,118	¥ 1,277	\$ 10,864
Deferred tax liabilities	(10,538)	(5,130)	(102,396)

In assessing the realizability of deferred tax assets, management of the Group considers whether some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. At both March 31, 2014 and 2013, a valuation allowance was provided to reduce the deferred tax assets to amounts that management believed would be realizable.

The Group is subject to Japanese national and local income taxes which in the aggregate resulted in an effective statutory tax rate of approximately 37.7% for the years ended March 31, 2014 and 2013. Information about reconciliation between the Japanese statutory effective tax rate and the actual effective income tax rate on pre-tax income reflected in the accompanying consolidated statements of income for the year ended March 31, 2013 was not disclosed as their difference was less than 5% of the statutory tax rate for the year ended March 31, 2013. Reconciliation between the Japanese statutory effective tax rate and the actual effective income tax rate on pre-tax income reflected in the accompanying consolidated statements of income for the year ended March 31, 2014 is as follows.

	Percentage of pre-tax income
	<u>2014</u>
Japanese statutory effective tax rate	37.7 %
Increase (decrease) due to:	
Permanently non-deductible expenses	1.0
Tax exempt income	(4.7)
Local minimum taxes - per capita basis	0.7
Changes in valuation allowance	1.5
Effects of income tax rate change	4.0
Others	1.5
Actual effective tax rate	<u>41.8 %</u>

Following the promulgation on March 31, 2014 of the “Act for Partial Revision of the Income Tax Act, etc.” (Act No. 10 of 2014), a special surtax to be applied to restoration work in connection with the Great East Japan Earthquake has been abolished from the fiscal year beginning on or after April 1, 2014. In line with this revision, the Bank has changed the statutory tax rate used to calculate deferred tax assets and liabilities from 37.7% to 35.3% for temporary differences expected to be reversed in the fiscal year beginning on April 1, 2014. As a result of this tax rate change, deferred tax assets decreased by ¥344 million (\$3,351 thousand) as of March 31, 2014 and deferred income taxes increased by ¥344 million (\$3,351 thousand) for the year ended March 31, 2014.

16. Comprehensive Income

Amounts reclassified to net income (loss) in the current period that were recognized in other comprehensive income in the current or previous periods and tax effects for each component of other comprehensive income for the years ended March 31, 2014 and 2013 were as follows.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
Net change in unrealized gains on available-for-sale securities:			
Increase during the year	¥ 9,743	¥ 26,681	\$ 94,673
Reclassification adjustments	(1,476)	(153)	(14,343)
Pre-tax amount	8,267	26,527	80,330

17. Related Party Transactions

During the years ended March 31, 2014 and 2013, the Bank had significant transactions with the Bank's directors and audit and supervisory board members, and their immediate family members and/or the companies in which they hold a majority voting interest.

A summary of the significant related party transactions as of and for the years ended March 31, 2014 and 2013 is as follows.

	Millions of yen		Thousands of U.S. dollars
	2014	2013	2014
For the year:			
Number of related parties	5	7	
Amount of lending loan transactions (average balance)	¥ 92	¥ 98	\$ 898
At year-end:			
Loans and bills discounted	¥ 91	¥ 82	\$ 892

18. Subsequent Events

Appropriation of retained earnings

Shareholders of the Bank approved the following appropriation of retained earnings at the annual general meeting held on June 27, 2014.

	Millions of yen	Thousands of U.S. dollars
Cash dividends at ¥3.50 per share (\$0.03 per share)	¥ 716	\$ 6,959

19. Segment Information

(a) General information about reportable segments

The Group defines a reportable segment as a component of the Group for which separate financial information is available and whose operating results are regularly reviewed by the Board of Directors to make decisions about resources to be allocated to such segment and assess its performance.

The Group engages in financial services primarily in banking and also in comprehensive finance leasing services and credit card services. The reportable segments of the Group are determined based on the types of financial services as follows.

“Banking” — head office and branches

- Deposits and loans
- Domestic and foreign exchange transactions
- Securities investments
- Trading of trading account securities
- Underwriting and registration of corporate bonds

“Leasing” — Nagoya Lease Co., Ltd., a domestic subsidiary of the Bank

- Comprehensive finance leasing business

“Credit Card” — Nagoya Card Co., Ltd. and Nagoya MC Card Co., Ltd., domestic subsidiaries of the Bank

- Credit card business

(b) Basis of measurement for segment profit, segment assets, segment liabilities and other material items for each reportable segment

The measurement basis for reportable segment information follows the accounting principles used in the consolidated financial statements as described in Note 2, entitled the “Summary of Significant Accounting Policies.” The segment profit is based on “ordinary income,” which is defined as total income less certain special gains and certain special losses included in the accompanying consolidated statements of income, and intersegment income is accounted for based on prices of ordinary transactions with independent third parties.

(c) Information about reportable segment profit, segment assets, segment liabilities and other material items by reportable segment

Segment information as of and for the years ended March 31, 2014 and 2013 are as follows.

Millions of yen
