1. Overview of operating results and others

(1) Overview of operating results for the six months ended September 30, 2026

In the six month period ended September 30, 2026, the Japanese economy has continued on a gradual recovery path overall due to signs of recovery in consumer spending and corporate capital investments supported by wage increases and improvements in the employment environment. In the Bank's major operating region of Aichi Prefecture, the economy is slowly recovering due to solid personal consumption, as well as signs of a recovery in production and capital investment activities in various industries. However, the economic outlook remains uncertain due to continued rising prices of raw materials, energy, and commodities, as well as fluctuations in the financial and capital markets, and many uncertain elements, including geopolitical risks such as the impact of U.S. trade policies and the prolonged situations in Ukraine and the Middle East.

Under these economic conditions, the Bank's consolidated operating results were as follows:

Ordinary income for the six months ended September 30, 2026 increased by ¥17,306 million year on year to ¥77,711 million, primarily due to increases in interest on loans and discounts and interest and dividends on securities.

Ordinary expenses increased by ¥10,174 million year on year to ¥57,841 million, primarily due to increases in interest on deposits and loss on sale of bonds.

As a result, ordinary profit increased by ¥7,131 million year on year to ¥19,869 million, and profit attributable to owners of parent increased by ¥4,352 million year on year to ¥13,498 million.

(2) Overview of financial position for the six months ended September 30, 2026

As of September 30, 2026, deposits increased by ¥214,543 million during the period under review to ¥5,595,751 million.

As of September 30, 2026, loans and bills discounted increased by ¥134,495 million during the period under review to ¥4,444,790 million as a result of proactively responding to various funding needs, including financial demands of local businesses and personal loans primarily for residential loans.

(3) Explanation of consolidated earnings forecasts and other forward-looking statements

1) Consolidated earnings forecasts

Based on recent trends in financial results, the Bank has revised the full-year earnings forecasts for the fiscal year ending March 31, 2027, that were announced in the "Consolidated Financial Results for the Fiscal Year Ended March 31, 2026" on May 12, 2026. For more details, please refer to the "Notice Concerning Revisions to Earnings Forecasts" that was separately disclosed today.

2) Revision to the dividend forecasts

Based on the Bank's shareholder return policy, it has decided to revise the second quarter-end dividend forecast for the fiscal year ending March 31, 2027 upward by ¥10 to ¥110 per share, and the year-end dividend forecast upward by ¥20 to ¥120 per share. For more details, please refer to the "Notice Concerning Dividend from Surplus (Interim Dividend) and Revision to the Forecast of Year-End Dividend (Dividend Increase)" that was separately disclosed today.

Notes on significant subsequent events

Refund from retirement benefit trust

The Bank has established a retirement benefit trust for the purpose of funding future retirement benefits. However, due to continued overfunding of plan assets for retirement benefit obligations, the Bank decided to terminate a portion of the retirement benefit trust to receive a refund, and implemented this action on November 11, 2026.

The refund amount associated with this matter is approximately ¥8.7 billion, and, accordingly, the Bank expects to record approximately ¥2.0 billion in gain on return of retirement benefit trust as extraordinary income in the non-consolidated and consolidated financial statements for the fiscal year ending March 31, 2027.

Additionally, the refund amount and amount of gain on return of retirement benefit trust are rough estimates, and the Bank is currently in the process of determining the final figures.
